We travel frequently between Mitchellville, MD and Natchez, MS ...1252 trip each way. Naturally we find ourselves on busy interstates near and through major cities enroute. I get more robust REGIONAL weather than any local can provide...and, I do not have to change the station!
David A Wisyanski

ps Tho indirectly related, I pay XM for a fee so that I can enjoy the Laugh USA channel anytime anywhere. Show me a local that can provide such diverse programming of historical, current comedy and humor. NAB's 04-160=a very bad idea
